

1: Naphterpin

2: Naphterpin B

3: Naphterpin C

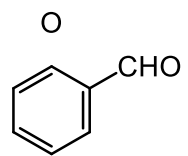

8: Marinone (X = H, Y = Br)

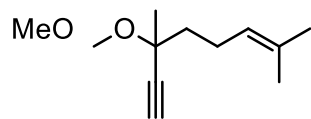

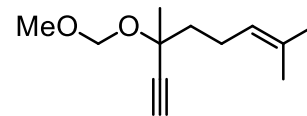

9: Isomarinone (X = Br, Y = H)

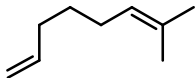

- Naphterpin and Marinone are families of marine merotepenoids
- Naphterpin was the first natural product discovered in this family, isolated by Seto et al. in 1990
- Marinone was isolated by Fenical and coworkers in 1992 and isomarinone reported in 2000

Retrosynthetic Analysis of the Naphterpins
