Contributed talks (The Altindis Lab Members, EA corresponding author)

At Boston College

Awards for the Altindis Lab Members

Aurelien Chuard, PhD

1. Best Oral Presentation Award, 7th biennial conference of the North American Society for Comparative Endocrinology, May 2023
2. Travel Award, American Society of Virology 2021, International
3. Travel Award. First Global Amphibian and Reptile Disease (GARD) conference-2022 (August 4-10, University of Tennessee Conference Center, Knoxville, TN)
4. The Boston College Postdoctoral Association (BCPDA) Conference Travel Award 2023
5. 2023-24 The Boston College Postdoctoral Association (BCPDA) Training Grants visiting Rochester University in 2023.

Khyati Girdhar, PhD

1. The Boston College Postdoctoral Association (BCPDA) Conference

- 20.** MIT Microbiome Symposium, 2024. Exploring the Role of Taurodeoxycholic Acid in Pediatric Celiac Disease Pathophysiology March 22, 2024. MIT- Cambridge MA
- 21.** AAI Annual Meeting, Immunology 2024. A microbiota derived metabolite and pediatric celiac disease pathogenesis May 3-7, 2024. Chicago IL
- 22.** Boston Bacterial Meeting 2024. Investigating a Gut Microbiota-derived Metabolite in the Onset of

41. Nicole Koutun and Michelle Zhang. Undergraduate Research Day. The Role of a Gut Microbiome-derived Metabolite in the Pathogenesis of Pediatric Celiac Disease. May 5, 2024, Chestnut Hill, MA.
 42. Kalaimagal Nesarajah. Undergraduate Research Symposium. Impact of Viral Insulin on IGF1R Localization in Zebrafish Cells. April 10, 2024, Chestnut Hill, MA
 43. Kalaimagal Nesarajah SACNAS NDiSTEM Conference. Impact of Viral Insulin on IGF1R Localization in Zebrafish Cells. October 31, 2024.
 44. Kalaimagal Nesarajah Dr. Samuel M. Nabrit Conference for Early Career Scholars. Understanding the Insulin and IGF1 Signaling Pathways During Physiological Nutrient Privation. June 2, 2023, Providence, RI
 45. Michelle Zhang. Dr. Samuel M. Nabrit Conference for Early Career Scholars. Investigating the Role of Taurodeoxycholic Acid in the Pathogenesis of Pediatric Celiac Disease. June 7, 2024, Brown University, Providence, RI
 46. Michelle Zhang. Future of Biology Conference. Exploring the Role of Taurodeoxycholic Acid in Pediatric Celiac Disease Pathophysiology. April 20, 2024, Harvard University, Cambridge, MA
 47. Michelle Zhang. World Pre-Health Conference. The Microbiota-derived Metabolite TDCA May Contribute to the Pathogenesis of Pediatric Celiac Disease. April 13, 2024, Harvard Medical School, Boston, MA
 48. Michelle Zhang. Undergraduate Research Day. Investigating the Role of Taurodeoxycholic Acid in the Pathogenesis of Pediatric Celiac Disease. May 3, 2024, Boston College
 49. Brady James and Daniel Kim. BC Undergraduate Research Day. Isolation of Molecular Mimic HPRT for T1D Autoimmune Response. May 3, 2024, Chestnut Hill, MA.
 50. Brady James. Dr. Samuel M. Nabrit Conference. Isolation of Molecular Mimic HPRT for T1D Autoimmune Response. June 7, 2024, Providence, RI

TEACHING

My teaching evaluations have consistently been above the departmental and university averages. Evaluations are available upon request.

Classes

2024 Fall

BIOL4290 *Metabolic Regulation and Human Disease*

3 credit hour undergraduate class, 51 students

BIOL5100 *Gut Microbiome and Human Disease*

2 credit hour undergraduate class, 12 students

BIOL6420 *Contemporary Biological Questions and Critical Analysis* (co-taught, 3 weeks)

2 credit hour undergraduate class, 8 graduate students

2024 Spring

x BIOL4290 *Metabolic Regulation and Human Disease*

3 credit hour undergraduate class, 46 students

BIOL5100 *Gut Microbiome and Human Disease*

2 credit hour undergraduate class, 12 students

BIOL6420 *Contemporary Biological Questions and Critical Analysis* (co

2022 Spring

BIOL4290 *Metabolic Regulation and Human Disease*

3 credit hour undergraduate class, 23 students

BIOL5100 *Gut Microbiome and Human Disease*

2 credit hour undergraduate class, 12 students

2021 Spring

BIOL4290 *Metabolic Regulation and Human Disease*

3 credit hour undergraduate class, 23 students

BIOL5100 *Gut Microbiome and Human Disease*

2 credit hour undergraduate class, 12 students

2020 Spring

BIOL4290 *Metabolic Regulation and Human Disease*

3 credit hour undergraduate class, 21 students

BIOL5100 *Gut Microbiome and Human Disease*

2 credit hour undergraduate class, 12 students

2019 Spring

BIOL5100 *Gut Microbiome and Human Disease*

2 credit hour undergraduate class, 12 students

Undergraduate Research Supervision in the Altindis Lab. Every semester 2019 Spring - 2024 Spring.
BIOL 4960. *Undergraduate Research* 3 credit hour supervision of undergraduate research; 46 students in total

MENTORING AND ADVISING

Underlined: current mentees

Senior Research Associate

1. Sudarshan Bhattacharjee, PhD 2024-present

Postdoctoral Researchers (Current: 3, Total: 6)

1. Khyati Girdhar 2020-present

Dr. Girdhar will start her laboratory as an Assistant Professor at the Medical College of Wisconsin in January 2025.

2. Aurelien Chuard 2021-present

3. Keiichiro Mine 2024-present

4. Mahya Razavi 2023-2024

5. Martina Chrudinova 2019-2022

Scientist, Institute of Organic Chemistry and Biochemistry, Prague, Czech Republic

6. Qian Huang 2018-2020

Assistant Professor at the University of Kentucky Medical School since July 20224.

7. Michael Rak 2018-2019

Principal Scientist, Carbon Biosciences, Boston, MA

Graduate Students (Current: 4, Total: 5)

1. Kristina Kelley 2022-present
2. Audrey Randall 2022-present
3. Dogus Dogru 2022-present
4. Katherine Truelson 2023- present
5. Oyku Tosun 2023-2024 (left the graduate program)

Rotation Graduate Students (Total: 18, 6-8 weeks)

1. Katherine Truelson 2023
2. Dogus Dogru 2022
3. Efe Cinar Sumer 2022
4. Kristina Kelley 2022
5. Audrey Randall 2022
6. Oyku Tosun 2022
7. Maira Ahmed 2021
8. Jelena Momirov 2021
9. Minqi Shen 2020
10. Irem Ozkan 2020
11. Tian Wang 2020
12. Casey Roberts 2020
13. Esteban Marte 2020
14. Tian Wang 2020
15. Matthew Crum 2019
16. M. Javad Akbari 2019
17. Alvaro Dafonte Imedio 2019
18. Bharathi Sundaresh 2019

In 2024, due to limited space constraints, The Altindis Lab was unable to accommodate rotation students, necessitating the regretful refusal of some applicants

Other Positions (class)

1. Scott Hsu (2021) – applying to PA School
Medical Assistant, New York
 2. Maximilian Figura (2022) – applying to Medical School
Emergency Medical Technician in Queens, New York
 3. Amol Raisingani (2022) – applying to Medical School
-

OUTREACH

2023 - State of the Science: The Role of the Microbiome and Type 1 Diabetes. *the(sugar)science*.
01/11/2023

2023- Science Journal for Kids. How do viruses trick their hosts into feeding them? October 2023

2023 - FACES Summit: Racism in the Workplace Professor Panel. 04/22/2023

2022 - Joslin Diabetes Center Alumni Career Panel, October 7, 2022

2021 - Guest scientist: Bioethics Society Lunch with a Professor, Boston College

2021 - Boston Bacterial Meeting 2021 –

3. New grant for d
